In the wake of the public "beheading" of Sheriff Joe Arpaio, Roy Warden, aka "the Notorious Mexican Flag Burner" has called for the formation of a Citizen Activist Group to confront and stop Pima County Legal Defender Isabel Garcia.

"For many years Isabel Garcia has been the lead spokesperson for Pima County Open Border Policy," says Warden. "The time has come for We the People of Pima County to stand up and re-assume responsibility for the actions of our government.

"Within one week I will bring a group of local citizens to speak before the Pima County Board of Supervisors. In a Memo to Pima County Administrator Chuck Huckleberry dated July 15, 2008 Supervisor Ann Day has already expressed her disapproval of Pima County Legal Defender Garcia. We'll have 50-100 angry people in the audience and picketing outside.

"Our message will be simple: 'We're Mad as Hell! And We're Not Going to take it anymore!'"

Warden claims he has support from local and national groups. "The Beheading of Sheriff Joe got national attention. People are saying, "What on earth is going on in Pima County Arizona?"

"I'll tell you what's going on," said Warden. "For 30 years Pima County officials have sold your birthright. They have invited in Mexican Illegal Aliens to work for cut-rate wages. They have violated federal immigration law. And they did it to make money!"

Warden wants people to call in and email their local talk shows, to organize and take action. In

Tucson

call and email:

Jon Justice The John Justice Show The Truth Radio 104.1 FM, 6-9 am. (520) 880-1041 justice@1041thetruth.com
"We need Jon Justice to use his show to publicize this March to Confront Isabel Garcia and The Pima County Board of Supervisors," said Warden.

The place is Pima County Arizona and the Time to Stand Up is Now. For years

Pima

County

officials have promulgated Open Border Policy in direct violation of federal immigration law.

The time has come for We the People to tell our officials: "We're Mad as Hell. And We're Not Going to Take it Anymore!"
